WORK EXPERIENCE

Newfold Digital - Front-End Web Developer

2018 - PRESENT

I helped maintain the Front-End of web.com, bluehost.com, networksolutions.com, register.com, and hostgator.com.

Using Git, HTML, SASS, and Typescript, I created components and templates for Adobe Experience Manager (AEM).

Built Adobe Target Activities used for A/B tests and tailored customer experiences.

Using HTML and CSS, I built out marketing emails.

Web.com - Modifications II

2012 - 2018

Using HTML, CSS, and Javascript , I performed site redesigns and site modifications for our clients.

I created three internal tools using HTML, CSS, and Javascript that helped the productivity of our team.

Web.com - Store Support

2011 - 2012

Assisted clients with their ecommerce questions, content and design work.

Using Excel, I was able to create csv files for quick upload of large store inventories.

I upsold on custom work such as JQuery slideshows and CSS flyout categories.
